## PRINCIPAL'S MESSAGE

Graduation is a time of reflection. As Seniors, you review your days and experiences of your High School career and see how they will impact on your future. Your days in the sheltered and nurturing environment which the Bulkeley Family has created for you are over. We have done our best to prepare you for the you that is to be. The staff has been committed to provide you with a sound education which has formed your basis for future learning. You have been offered alternatives and opportunities which have helped you to stretch yourselves, grow and exercise your options wisely.

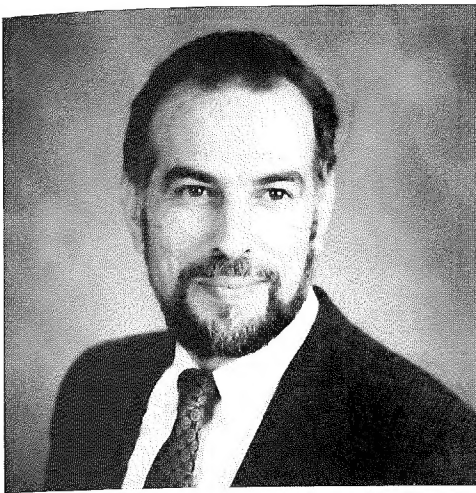

The Class of 1992 has witnessed the explosion of the Technological Age. You saw a war waged on Prime Time T.V. and a rigid and inflexible country restructure before your very eyes. Bulkeley High School embraced the use of Technology during your four years here. You have been linked with students from P.S. 69 in Russia via Satellite. You participated in Long Distance Learning experiences via compressed Video. Some of you experienced a new way of drawing through our Computer Assisted Design Laboratory while others used this latest technology in the Graphic Arts Program. All students learned the use of computers instead of pens and paper to transcribe the creativity within. Members of the Class of 1992 were involved in gathering Global Environmental Data via computers and in drawing conclusions about its implication on the World Community. Some of you dove in high tech submarines to explore a new world, while others boarded a jet that took them to another continent. Some of you composed music through the use of our Midi Mac Laboratory. Technology, its use and evolution became second nature to the Class of 1992.

As a Class, you emphasized the humanistic aspect of your existence by supporting the needy and disenfranchised of our community. You reached out to help the homeless through very active and successful Food and Fund Drives. You collected money to assist with Medical expenses and made a personal commitment by conducting Blood Drives. Volunteer

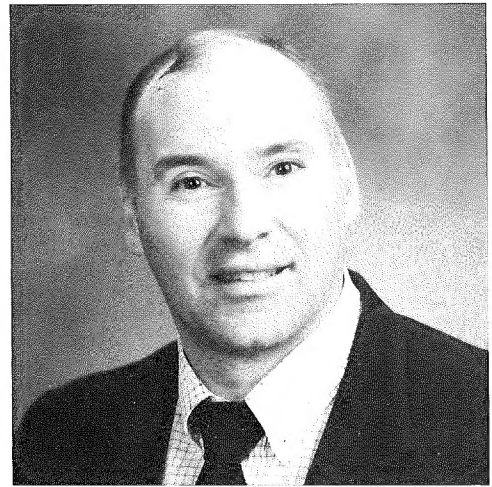

actions became second nature to you. You gave of your time to tutor. Some of you chose to work with the elderly while others volunteered at neighborhood Day Care Centers. Marches and rallies against violence and substance abuse were organized by members of your Class. The Peer Counseling Program was enhanced by the participation of members of the Class of 1992 as you reached out to make a difference in the lives of your peers. The Bulkeley Family has seen you think globally but act very responsible locally. Although much more remains to be done, you have demonstrated that you are keenly aware of the needs of our community and can organize to address those needs.

As we remember the Class of 1992, we will remember the innovative programs that became reality for you and the many contributions you made to your community. I personally will remember that Class that as Freshmen marked the beginning of my career as Principal of Bulkeley High School. You are the first group of students I have seen through four years and for that you will always hold a very special place in my heart. Best wishes to you as you begin a new phase in your lives. Go with the security of knowing that we love you and that you will always be very special to all of us.

"This unique group of young men have not been led down the path of ease and comfort, but under the stress and spur of difficulties and challenges. They have conditioned themselves to win and anything else was unacceptable. Their attitude was that no goal was unattainable — if the motive was strong enough."

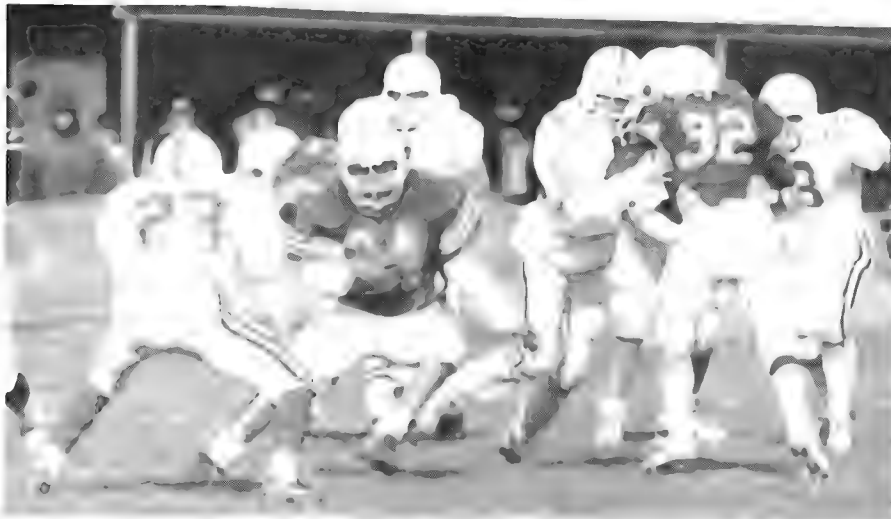

"Collectively, this year's team has attained a won-lost record that no other team in Bulkeley's rich football tradition has ever accomplished since 1926."

"On behalf of myself and the entire coaching staff, you're the best; a cut above. The way you played the game is indicative of how you will live your life — **SUCCESSFULLY!!**"

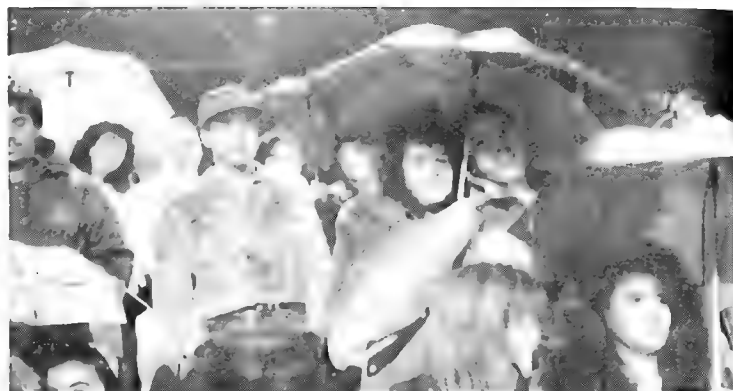

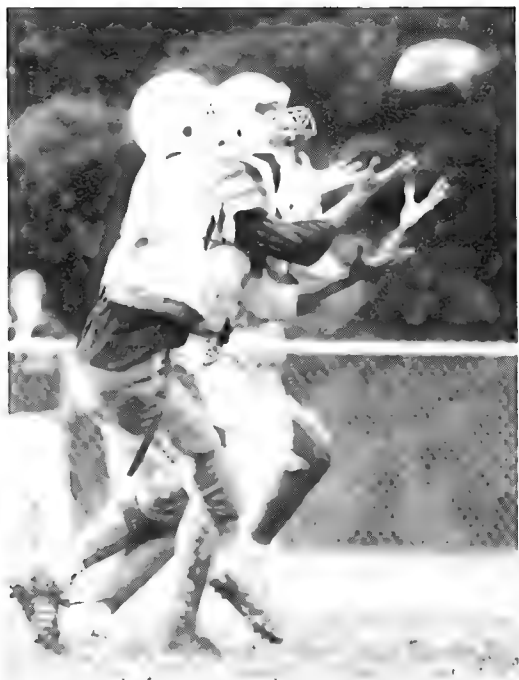

— COACH GRAHAM MARTIN
